Sun City Fire District

RESOLUTION NO. 08-0219 A

A RESOLUTION OF THE BOARD OF THE SUN CITY FIRE DISTRICT, ARIZONA, SUPPORTING THE FIRE FLOW IMPROVEMENTS PROPOSED BY ARIZONA-AMERICAN WATER COMPANY

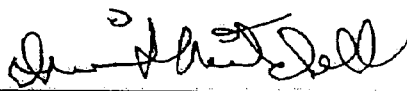

WHEREAS, Arizona-American Water Company is proposing to make over Three Million Dollars (\$3,000,000) in fire flow improvements to its water system over a four year period. The improvements were recommended by a Community Task Force composed of representatives from 13 entities/major organizations within the service area; and

WHEREAS, Most, but not all, of the water distribution system serving the Sun City District provides minimum fire flow and has sufficient hydrants to meet the recommendations set forth in the 2006 International Fire Code. A few areas, including much of Sun City and the Town of Youngtown, within the Sun City Fire District do not. The current situation represents a hazard to the public health and safety. Completing the proposed improvements will ensure that flows for fire fighting purposes and fire hydrants are uniformly available throughout Arizona-American's Sun City service area and will enhance the public health and safety; and

WHEREAS, The improvements being proposed will benefit customers residing in the Sun City Fire District. Approximately 44,133 linear feet of new pipes/mains and 195 new fire hydrants are to be installed. Arizona-American will provide the funding and make the improvements, so long as the Arizona Corporation Commission finds the improvements to be prudent and approves a rate mechanism permitting Arizona-American to earn the same return on these fire protection related improvements, once constructed and in use, as on the rest of its system; and

NOW THEREFORE, BE IT RESOLVED, The Board of the Sun City Fire District strongly support the recommendations of the Community Task Force and Arizona-American Water Company relating to fire flow and fire hydrant improvements for the Sun City District. **The Sun City Fire District respectfully requests the Arizona Corporation Commission act: (1) to ensure that all customers within the Sun City District are provided similar water service, including access to adequate flows and fire hydrants for fire fighting purposes; (2) to require Arizona-American make the recommended fire protection related improvements to its water distribution system and (3) approve a cost recovery mechanism allowing Arizona-American timely recovery of its actual investment in the fire flow improvements, as they are placed in service.**

PASSED AND ADOPTED by the Board of the Sun City Fire District, Arizona, this
19th day of February, 2008.

Chairman

ATTEST:
